A strange robbery case stirred up the interest of Bellevue last week. One evening, tired from an all day tramp, a hawker loaded down with gripe and packs applied at the Southern Hotel for accommodation. He was shown to a room for which he was charged in advance, and in leaving the room his pilot relieved him of a case of jewelry in addition to the price of the room. On missing his case the hawker reported, his pilot had no connection whatever with the hotel and as a result a man named. Rose put under arrest. A diligent search by the police failed to reveal the whereabout 5 of he missing case. Ross was committed for thirty days on the summary charge of obtaining money under folse pretenses and will be trief at Mocieod on the theft charge. A stranged evelopment of the case occurred just as the train was pulling out of the station with the prisoner, some mysterious person whose identify has never been disclosed, deposited, the missing case of jewelry in a rear passage of the hote! in which the

Lake City

Is located by the shore of Crow's Nest Lake, only a few miles east of the provincial boundary between Alberta and British Columbia, and just north of the international line. In reality, it is at the top of Canada where the majestic Rockies tower in serene magnificance over great chasms and numerous fiords, reflecting their presence on the waters of this beautiful lake. Here also are afforded the very best tasks for the daring mountain climber and for huntsman who desires to outrival the quiet ways of the Rocky Mountain goat, sheep, deer or elk, which are the monarchy thereon. In close proximity are numerous timber, mineral and fuel resources, development of which is now in its initial stages.

These resources include gold quartz, coal, iron and pulp wood. Crow's Nest Lake has long been looked upon with promise as an admirable location for health and tourist resorts, and but now this promise is being realized. Plans for hotels, etc. are being arranged, as well at boat houses, and the most modern pleasure yawls will soon glide over the surface of this beautiful lake.

But a few weeks ago lots were placed on the market, and the agents have had their hands full attending to purchas-ers. Prices run from \$150 up. For further particulars apply to the agents:
